PROFESSIONAL SUMMARY

Enthusiastic and self-motivated Front-End Development enthusiast with a strong educational background in Computer Science from Batumi Shota Rustaveli State University. Currently in the early stages of learning and actively pursuing expertise in ReactJS and front-end development. Demonstrated dedication and progress through self-study. As a Teaching Assistant at Digital Instituted for the past 5 months, provided valuable support in the classroom, assisting with tasks such as lesson preparation, student support, and grading. Also, as a Lecturer for the past 4 months, delivered engaging instruction on introductory web development topics including HTML5, CSS3, JavaScript, Git, and Bootstrap. Committed to continuous growth and passionate about contributing to the field of web development.

SKILLS

HTML5	TypeScript
CSS	Reactjs
SASS	Git/Github
Bootstrap	React-hook-forms
JavaScript	NextJS

EDUCATION

- 2020.09.15-Current **Bachelor of Science: Computer Science And Programming**
Batumi Shota Rustaveli State University – Georgia, Batumi.

WORK HISTORY

- Lecturer Of Intro Web Development – @ Digital Institute** February 2023 – Present
As a Lecturer of Intro Web Development, During the lectures I teach students HTML5, CSS, Git, Bootstrap, and JavaScript. I focus on developing their programming mindset and problem-solving abilities. During lectures, students build small projects and engage in exercises to reinforce their learning. My goal is to empower students to think like programmers and excel in web development.
- Teaching Assistant – @ Digital Institute** January 2023 – Present
As a Teaching Assistant, I assist students in problem-solving, exercises, and improving their logical and coding skills. They work on projects using HTML, CSS, Sass, JavaScript, TypeScript, ReactJS, Git, and more. My goal is to create a supportive learning environment and help students succeed in web development.

PROJECT

- My Portfolio - @ portfolio** I have leveraged technologies such as HTML, CSS, SCSS, TypeScript and ReactJS to develop a compelling portfolio that showcases my abilities and skillset. Through this project, I aim to demonstrate my expertise and potential to prospective employers, highlighting my capabilities and proficiency in these technologies
- Movies - @ My Movies** I have utilized a range of technologies including HTML, CSS, SCSS, TypeScript, ReactJS and REST API to enhance my coding and problem-solving skills. Through practical application, I have honed my abilities and gained valuable experience in these technologies
- Rest Country API - @ Rest Country API** I have actively employed various technologies such as HTML, CSS, SCSS, TypeScript, ReactJS, and REST API to elevate my coding aptitude and refine my problem-solving abilities. By engaging in hands-on projects, I have acquired valuable expertise and practical experience in utilizing these technologies effectively.
